

Section Header	2
Header Text #3748	2
Would be cool if we can extract this text also #3233	2
Some headings might have multiple tags #3272 #1234	2
Another Section Header	2
Another header Text #3248	2
Would be cool if we can extract this text also #3133	2
Some headings might have multiple tags #3242 #1634	2

Section Header

Header Text #3748

- Most importantly I just need the #”xxxxxx” and the page number it is present on
- Cannot use the page numbers in the TOC as this is just one document which is merged into many similar documents so page numbers are different
- The #xxxxx is variable ranging from 4-6 digits (not sure though)

Would be cool if we can extract this text also #3233

- Though not really a priority

Some headings might have multiple tags #3272 #1234

- Very few subheadings might also have tags #12433 #3624
- some text
- Very rarely some text may also have some tags #12213

Another Section Header

Another header Text #3248

- Most importantly I just need the #”xxxxxx” and the page number it is present on
- Cannot use the page numbers in the TOC as this is just one document which is merged into many similar documents so page numbers are different

Would be cool if we can extract this text also #3133

- Though not really a priority

Some headings might have multiple tags #3242 #1634

- Very few subheadings might also have tags #12483 #31124
- some text
- Very rarely some text may also have some tags #12433
- Just some text #121153
